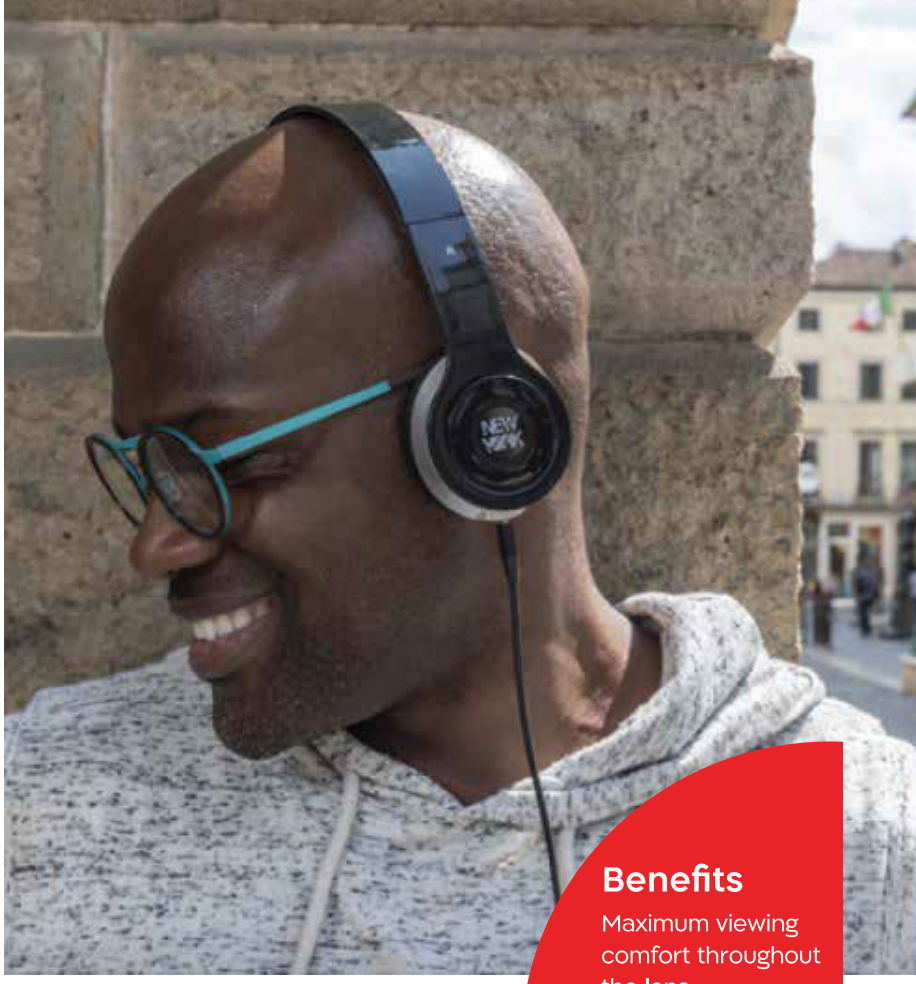
Shamir First PAL™



An excellent solution for young presbyopes

What is it

Shamir First PAL™ is a high-performance progressive lens that eases new presbyopes into progressive lenses.

Shamir First PAL™ features a unique design, created especially for new presbyopes.

Who it's for

Shamir First PAL™ is designed for single vision wearers who need presbyopic correction for the first time. The add power is limited to +0.75 to +1.50, and this ensures wide zones, clear of any distortions.

Benefits

- Maximum viewing comfort throughout the lens
- Wide and easy to use reading zone
- Distance zone is equivalent to SV distance lenses
